

DESPRE IZVOARELE DREPTURILOR SUBIECTIVE

Author: Gheorghe MIHAI*

***Abstract:** We have showed that an endless number of subjective rights can be performed, the list remaining open to permanent additions. However their number recorded by now would still probably allow us to go into the sources, the origins of rights; when saying “sources” we mean “formal sources”, as the material ones are not a direct evidence of their presence but probably only variable frameworks.*

***Keywords:** Subjective Rights, Formal Source, Act, Law.*

***JEL Classification:** K00*
