

## **CHALLENGES FOR GOVERNANCE AND SHORTCOMINGS AT THE ANSWERS IN CENTRAL EUROPE**

**György JENEI**

**ABSTRACT:** *EU governments – like other governments in the world – have had to live together with fundamental changes and continuities in the economic, political, social and cultural environment of governance and public administration. This paper will raise three main questions:*

- What are the fundamental, long-term changes in the economic and socio-political environment of the governments?*
- What challenges have been emerged for the governments?*
- What are the core requirements of the governmental responses? Do we need to think about new models for public administration?*

**KEYWORDS:** *government, governance, public administration*
