

CONSIDERATIONS REGARDING THE RIGHT TO ACCES TO HEALTH SERVICES OF IMMIGRANTS IN ROMANIA

Brîndușa MARIAN*

ABSTRACT: *The integration of immigrants in the host-state represents and on-going, long lasting process. Host-states, members of the European Union, in their attempts to support this process, have adopted and are continuously adapting their legislation and search for means to facilitate the integration process of the immigrants in the society. States establish through their legislation the rights immigrants benefit from and one of these rights is of access to health services. In Romania, the legislation in this area, general and nondiscriminatory, provides support for the immigrants. However, the effective exercise of this right highlights real and stringent problems that immigrants have to face when they find themselves in the situation of having to benefit from health services.*
